Projeto exibido em sala 3 Jobs, site de vagas.

Foi apresentado o projeto rodando no Kubernetes.

Matando algum dos servicos do sistema, uma nova instancia era gerada mantendo o sistema funcionando o tempo todo.

The image shows a terminal window on the left and a web browser on the right. The terminal window displays Kubernetes commands and their outputs, including pod status checks and deletions. The web browser shows the 3Jobs dashboard, which includes a search bar, a status summary, a 'TO DO LIST', and a 'Vaga' (Vacancy) section.

**Terminal Output:**
